Execution quality

Excellence and reliability at your fingertips

You benefit from our high level of technical execution, our tried-and-tested methods, and our exceptional service. Reduce unforeseen events, maintenance, production downtime, and operating costs. Optimize your operations, your equipment lifespan and efficiency, and your return on investment.

- Reliability
- Durability
- Profitability

Effective products

Performance guarantees as a starting point

Through our engineering, high structural quality, advanced technologies, and on-site pilot testing, performance is sustainable. Benefit from economies of scale and shorten your implementation and commercialization timelines. Have an autonomous and reliable partner who cares about your present and future needs.

- Proactivity
- Simplicity
- Profitability

Integrated solutions

Vertical integration with built-in agility

It goes hand in hand with the ability to anticipate, support up to construction, easy access to engineers, and full accountability. We understand your reality and exercise tight control at every stage. Your risks are minimized, your profitability maximized, and your burden shared.

- Support
- Supply
- Peace of mind

Fournier **One team, one name**

We are for **our clients** an unwavering ally in commitment, providing uncompromising support in terms of guidance, results, and technical assistance.

We are committed to **our employees** by offering them collaboration, flexibility, health, safety, and continuous improvement.

We are committed to professionalism, innovation, and creativity that we dedicate to serving **our community** and **our environment**.

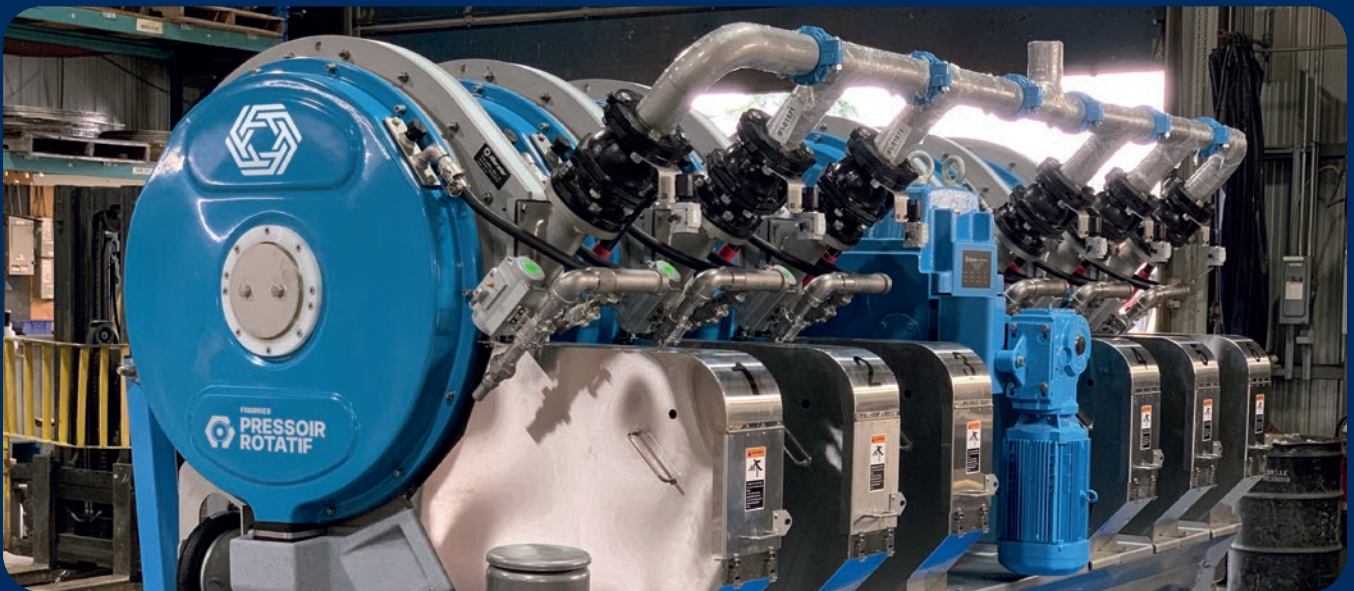

Anchored in innovation

The Fournier Innovation and Development Center, along with our expansion through mergers and acquisitions are pillars of our organic growth. Whether it's companies, products, or patents, this growth is always focused on **quality, product development, and innovation**. We combine our strengths with those of the top partners in research and technology in our markets to offer the best to our customers.

Accomplishments that match our promise

We have completed hundreds of unique and ambitious projects. We are eager and proud to tackle challenges and offer solutions that meet high quality and safety standards. **Put our vision and experience to work for your efficiency and profitability.**

High-performance products

Our credibility and operations depend on our product offering. We leave nothing to chance; the performance of our products is guaranteed by proven structural quality and rigorous pilot testing. This results in minimized maintenance, optimized commissioning, extended lifespan, and ultimately, **increased productivity and profitability.**

Not all industrial bolted tanks are created equal.

Fournier's bolted tanks are renowned for their robust craftsmanship and versatility for any leach, CIL, CIP, process and storage application. We provide turnkey services to engineer, fabricate and install any volume of bolted tanks.

They are designed to be seamlessly integrated into your existing infrastructure. Why compromise on cost-effectiveness, performance, safety, ease of operation and maintenance? It starts with Fournier.

Rely on the proven technology of our rotary presses, whether for dewatering wet materials, treating wastewater, or various industrial processes. Fournier is your preferred partner for high-performance, durable, and energy-efficient rotary presses that are easy to use and maintain.

Sludge management holds no secrets for us regardless of the application, configuration, or automation involved. Choose advanced and compact automated technology.

Integrated services

We provide fully integrated, tailor-made world-class services. We develop solutions customized to the needs of our clients, offering them proactive and agile close support. Total commitment, zero worries. Our vertical integration from engineering to installation allows us to be **a solid partner from A to Z.**

Your aluminum smelter deserves superior quality and a steady supply to avoid costly production shutdowns. Our products meet your standards. We specialize in supplying all kinds of collector bars and replacement logs for anode rods of any size. Customized service and just-in-time deliveries are part of our daily routine. We will never let you down, especially in case of an emergency.

Say goodbye to extended deadlines and skyrocketing costs. With us, reliability and predictability are guaranteed. Avoid the unexpected pitfalls that affect your profitability. Rely on seasoned engineers and contractors who ensure that everything is done according to the rules and within deadlines. Our continuous presence on the site leads to incomparable gains in efficiency. Our reputation for agility and quality speaks for itself. We are always one step ahead; we do more, and we do better.

Entrust us with your project.

By making Fournier your trusted partner, you will be accompanied by experts who are dedicated to your success.
