

Industrial construction

COUNT ON A ROCK-SOLID FOUNDATION.

 **FOURNIER**
BUILD ONE

Your projects are in good hands.

Whether in Canada or abroad, we meet the most complex challenges. We are always one step ahead.

An experienced partner

Fournier Build One is a general contractor with **more than 30 years of experience in industrial mechanics, boilermaking, and piping**. We don't simply rent labour—we're a contractor focused on the completion of industrial projects who develops a close relationship with each of its partners.

We are in full control of every aspect of the project and of the standards to be met. **You're minimizing the risk and saving time and money.**

A specialist's agility

We provide industry-recognized, integrated, reliable, and agile solutions. Our comprehensive range of services and our structure enable us to be **highly efficient, whether it's annual or one-off maintenance, or major multimillion-dollar projects**. We avoid unneeded extra stakeholders and administrative time-wasting and minimize duplication in project structure.

Money is put where it belongs: where it's needed most. **A fast road with high added value.**

The strength of a group

Fournier Build One stands out for its mechanical and boilermaking expertise, its piping development strategy and steel structures offering, and its UA piping manufacturing workshop. But we are also one of the pillars of the Fournier Group, which has 4 plants across the country and annual sales of \$160 million.

Fournier can handle all aspects of your construction project, from engineering to installation. **Integrated solutions, total commitment, zero worries.**

Fournier Build One

Average annual sales of **\$40 million**

More than **30 qualified people** committed to project success

More than **60 industrial projects** in Quebec and Ontario

An average of **60 projects** submitted per year

Nearly **200,000 CCQ person-hours** worked per year

Average **EHS frequency rate** over 5 years of **1.15**

Our values

Safety

It involves planning, access to high-quality tooling and equipment, and professional development.

Integrity

We believe that a transparent, honest business relationship is the bedrock of success.

Respect

We provide a respectful environment, but also respect our commitments and industry standards
